RAYSUN WEP-30 (A)/(B)
Spy Bluetooth Earpieces

The neckloop can camouflage as a necklace.

WEP-30(A) -Micro type

WEP-30(B) - long term use type

Feature

► Wear Bluetooth neckloop under clothes and place micro-sized spy earpiece inside the ear canal to initiate 2 way communication through mobile phone.

► Passive earpiece receiver powered by megetism. The invisible micro-sized spy earpiece is completely silent and automatically pick up audio signals from Bluetooth neckloop for covert communication.

► The effective range of earpiece magnetism is up to 30m in open field, but the person listening in on your audio can be anywhere in the world. The user can only wear earpiece with Bluetooth neckloop and carry a mobile to start up a surveillance communication with remote site for long time operation. (free from RF emission harm)

► Operate with the cellular phone in support of :1. Redial 2. Voice Dialing 3. Music Playback 4. Recording During Communication.

Special function

After being detached with neckloop and select "auto answer" mode, then position in a location to initiate remote audio monitoring. (Do not use for illegal intention)
