

LED/Xenon Powerful Tactical Flashlight

Raysun TPL-5 (LED)
Raysun TPL-6 (Xenon)

- 5 steps of light modes (TPL-5 only): Strong, Medium, Weak, Fast-flashing and SOS signal.
- Front-end features crenellated bezel to be used as a breaker or self-defense tool.
- Attaches to the weapon with Picatinny rail mount.
- Endurable, reinforced light aluminum alloy, can be fully immersed into water, water-proof grade IP-66.
- Coupling with optional reinforced PC "Traffic command baton" for traffic commanding as well as for self-defense purpose.

Raysun TPL-10 (LED)

- 4 light modes: Strong, Medium, Weak, and Fast-flashing.
- Super illuminating 10W CREE LED chip.
- Thermoflow™ patented heat dissipation structure to extend life-time effectively.
- Can be attached to the weapon with Picatinny rail mount.
- Endurable, reinforced light aluminum alloy, water-proof grade IP-x4.

Coupling with optional reinforced PC "Traffic command baton"

Combine with any weapon by Picatinny rail mount

Specifications:

Mode	TPL-5	TPL-6	TPL-10
Outer constructed material	Reinforced aeronautic aluminum alloy 6061-T6 material with military standard TYPE III and hard anodizing		
Dimension	Length: 144, diameter: Ø34 (mm)		Length: 243, diameter: Ø58.3 (mm) Handle: 26.7 (mm)
Weight	Below 175g (with batteries)		Below 380g (with batteries)
Power/control switch	Power button positions on the rear end, 5 switchable light modes (TPL-5 only): <u>Strong</u> , <u>Medium</u> , <u>Weak</u> , <u>Fast-flashing</u> and <u>SOS Morse code</u> .		2 Power buttons position both on the handle and rear end. 4 switchable light modes: <u>Strong</u> , <u>Medium</u> , <u>Weak</u> , and <u>Fast-flashing</u> .
Light chip/lamp	CREE MC-E 5W LED luminous chip, life-time up to 20,000 hours above	Xenon lamp, life-time up to 200 hours above	CREE MC-E 10W LED luminous chip, life-time up to 20,000 hours above
Illuminating intensity	5,000 Lux @ Parallel light axis to 1M		(1) Max. output luminance: 900 lumens (2) Parallel light axis intensity/range: (3) 1M: 13,600Lux above / 20cm (4) 2M: 3,720Lux above / 40cm (5) 3M: 16,00Lux above / 70cm
Power supply	Rechargeable or CR-123A battery, continuously light up to 120 minutes above under strong light mode		18650 industrial rechargeable battery, continuously light up to 120 minutes above under strong light mode
Protection level	Immersed water-proof, IP-66		IP-x4
Standard package & optional accessory	<p>📦 Standard package:</p> <ul style="list-style-type: none"> (1) TPL-5/-6 flashlight (2) Nylon belt carrying bag (3) Hand strap  <p>📦 Optional accessories:</p> <ul style="list-style-type: none"> (1) 1913 Picatinny rail mount (2) Reinforced PC Traffic command baton (3) CR-123A rechargeable battery x 2 + charger 		<p>📦 Standard package:</p> <ul style="list-style-type: none"> (1) TPL-10 flashlight (with battery) (2) Water-proof hard carrying case (3) AC charger (4) Vehicle DC charger (5) Hand strap  <p>📦 Optional accessories:</p> <ul style="list-style-type: none"> 1913 Picatinny rail mount
